

Investigating and prosecuting offences on the Dark Web

The Dark Web – a challenge for all investigators

17 May | Rothley Court Hotel | Leicestershire

The Investigator is hosting a second workshop on the Dark Web focussing on the investigation and prosecution of offences on this 'secret' area of the internet

- A Leading cyber crime solicitors who has worked on the high profile Silk Road investigations joins the expert line-up for this exclusive workshop which provides 'not to be missed' advice on how to investigate and prosecute offences on the Dark Web
- Tailor-made exclusively for The Investigator – the experts will provide you with all the latest best practice, case studies, legislation and current thinking to help inform your investigations
- We'll unveil the latest findings of exclusive research into the extent of current criminality operating on the Dark Web compiled by cyber threat intelligence experts Intelligagg
- Our experts will also access the Dark Web and explore a number of online auction sites that are currently offering illegal goods

The Dark Web – a challenge for all investigators

The Dark Web poses a real problem for investigators as it cannot be accessed freely like the conventional web without the use of specialised encryption software.

As a result, criminals are flocking to the Dark Web to pedal their illegal activity in a range of areas including firearms, drugs, terrorism, fake passports and luxury goods.

Our workshop will provide advice on how to investigate offences on the Dark Web with the emphasis being on 'how to think prosecution' from the outset of your inquiries.

The day is aimed at cyber crime and digital investigators as well as investigators working in major crime roles as many everyday investigations now have a Dark Web element to them. Criminals who are operating on the Dark Web are also operating on the surface web and are involved in organised crime gangs and other serious criminality.

Booking and venue details

Venue: Rothley Court, Rothley, Westfield Lane, Rothley, Leicestershire, LE7 7LG. Our expert line-up of speakers include:

Gary Bradfield, head of Cyber Crime at Cartwright King Solicitors

Gary is one of the UK's most experienced solicitors in cyber crime, particularly Dark Web offences and he has worked on numerous cases including the high profile Silk Road investigations.

Gary will be providing an exclusive insight into the cases he was worked on and provide expert advice on 'how to think prosecution' from the outset. He will also highlight the potential pitfalls and challenges investigators might face when investigating offences on the Dark Web and provide expert advice about how to address such challenges.

Gary is also an expert on the Computer Misuse Act as well as serious and complex fraud so will give an overview about the current nature of cyber crime offences.

Colin Tansley

Colin is a specialist online investigator with over 35 years of investigative experience. A former police officer with an extensive background in Intelligence he retired at the rank of Detective Superintendent having served both in West Yorkshire and Cleveland Police. After three years with the Federation Against Copyright Theft as Director of Intelligence and Investigations he left to set up his own company.

A qualified trainer and lecturer, Colin works both in the UK and internationally to provide expert training and advice on Dark Web and other online investigations.

He runs Intellect Solutions – a company that provide independent investigation and intelligence solutions to a range of law enforcement and private sector organisations.

Thomas Olofson

Thomas is a Dark Web expert who has a wealth of experience in cyber crime. He works for leading cyber threat intelligence experts Intelliagg.

He is the author of 'Shining a Light on the Dark Web' one of the first studies of criminality on the Dark Web. He is currently working on a follow-up study to assess how criminality on the Dark Web is evolving and growing. He will release the findings of his follow-up research exclusively to delegates at the work.
